Over the MINIATURE

SAIMITSU (MINIATURE) has been establishing a strong position in contemporary art.

SAIMITSU has been used by many artists as one style rather than a mere technique or an idea.

SAIMITSU is delicate, and it has abilities of dynamic and great expressions, and moreover it shows us its possibility for a new mode of expression. Therefore, many artists and viewers have been fascinated with it.

We are delight to present this group-exhibition of prize-winner who won an excellent prize in the DAISAIMITSU exhibition in 2014.

They have been expressing their own perspectives richly with their own SAIMITSU style.

The SAIMITSU perspective is not just MINIATURE, but rather it makes us feel depth and expanding the images.

We invite you to experience a variety of works with detailed approach, a very elaborately designed composition and a new dimension of MINIATURE.

We are expecting that you feel the possibility of SAIMITSU and one and only works, which artists depict.

We hope all of viewers enjoy the "Over the MINIATURE" exhibition. (担当 ; Narisawa Tomomi)

〈Artist〉

Ida Chiaki, Shibata Takeshi, Shiba Minoru, Namuko, Yamada Chika
